

Coronavirus – how to stay safe

Coronavirus is a new illness spreading across the world.

The signs are:

* A high temperature

* A new cough that will not stop

* A lost or changed sense of smell / taste

If you feel ill, stay home and phone your GP or get advice from 111.

In an emergency call 999.

Coronavirus – how to stay safe

Coronavirus is a new illness spreading across the world.

To stop it spreading, try to **stay home as much as possible**.

If you go outside, try to **stay away from other people**.

Coronavirus – how to stay safe

Coronavirus is a new illness spreading across the world.

To stay safe, wash your hands more often for 20 seconds.

Make sure to wash your hands when you:

- Get home from being outside
- Cough or sneeze
- Eat or handle food
